(b) MALARIA HAS DECREASED IN UGANDA

BY- MARGRET ZALWANGO

Malaria has continued to decrease in children especially bellow five years in the country

The head of American embassy in Uganda, Richard nelson said that effects of saying that malaria reduced in the country have started yielding results.

Nelson said that since the office of the American president started a more of fighting malaria in 24 countries in Africa through malaria initiative, people who die of malaria have reduced

He said this during the celebration of the world malaria day that is celebrated every year on 25th/ April, as the whole world continues to critically look at malaria and said that they are happy because the protocols that were put in place to fight malaria have started yielding fruits.
