

COMPOSITION WRITING

- To compose means to "form/create" and write: a text, a story, an essay etc.
- Composition writing requires a high degree of creativity and imagination.
- The flow of events in a chronological order should be strictly observed when writing a composition.
- ★ Free writing/free composition
- ★ Essay composition

A composition has four main parts.

- The title/heading/theme/topic (in capital letters)
- The introduction
- The body
- The conclusion

A) A title/heading/theme/topic:

- A title is the main idea of discussion.
- It should be brief, clear, and onto the topic discussed.
- It should be written in capital letters or each key word starting with a capital letter e.g

A Stranger in the House

b) The introduction:

- Can be by defining the key word in the title or by giving a general statement about the topic.
- You can start your composition by:
- Giving a background
- Asking a question or using a saying e.g A stitch in time saves nine.

The Bridge to Success

- It must be striking, interesting and arouses the reader to know more about the story.
- You should guard against giving the end result in the introduction, for it kills the reader's interest to read on.

Examples

A STRANGER IN THE HOUSE

At exactly three o'clock in the afternoon, my mum together with my siblings left home. They were going to attend my maternal aunt's introduction ceremony in the neighbouring village.

As soon as they set off, I also left home to our neighbour's home. I did not close both the front and behind doors since I knew I would not take long playing with my friend Akili. However, by the time we ended the evening play feast, it was already dark. I went back home, I was greatly shocked to see a very faint light flame going on and off in the midst of the darkness within the house. Through the windows, I could see the flame moving from one room to another. I knew very well that mum and my siblings would come back following day.

c) The body:

- It is the major part of the composition.
- It has all the main ideas of the story.
- The ideas got from the guiding question
- Or ideas created to support the topic.
- Put each idea in its paragraph but in order.
- Try to attract your reader with good language.
- It must have many correctly written sentences forming a number of paragraphs.
- You should carefully develop the body of the composition in order to lead the reader's feelings into a successful climax so that he/she can say: "Yes, it is a good story."

d) The conclusion:

The Bridge to Success

- It can be in form of advice to people e.g to candidates.
- It can be a summary of the situation or how you felt or benefited from the subject/discussion.
- It must be as interesting as the introduction for it is the climax of the composition. The conclusion should leave a mark in the mind of the reader.
- The conclusion could be a lesson learnt, an appreciation or a piece of advice.
- Do not just write that "is the end of the story".

Examples

- a) I lay dead silent in the corner of the kitchen as I saw them off, leaving the house wondering where i had hidden. I swore never in life to leave the house open.
- b) After ten hours, the village came back to life. The neighbours began whistling to each other as a signal that the rebels had been finally defeated by the government troops.

Other important elements of a good composition

- Legibility, spelling, correct, flow of ideas, clarity in communication, neatness, correct punctuation, avoid usage of short forms and abbreviations.
- Write simple and grammatically correct sentences.
- The paragraphs should be clearly written.
- Follow the right tense and verb tense agreement.
- Consistency in composition development.
- Make a plan for the composition: the characters involved and their appearances.
- Enrich your composition by using similes, metaphors, idioms and other figures of speech.
- Be guided by the instructions and underline the key/guide words in the instructions.
- Proof read your composition after writing to ascertain that your expressions are the right ones you intend to put across.

IMAGINATIVE COMPOSITION

THE SCARY NIGHT

That evening we had an enjoyable get together family reunion. Each of us was very excited since many of the family members were present.

Towards the end of the day, we saw off our visitors. Mum requested me to put the house in order again. I did all the work quite excitedly knowing very well that my sister and I were the only ones left to finish up the cake and the soda.

Soon it was dusk and eventually night fell. The light in the sitting room was shining very brightly. Out of curiosity, my young sister, Mono, noticed a funny creature slithering into the house. Within no minute, it began hissing strangely. I knew the small rats in our house had attracted the mighty cobra to the house.

No sooner had the hissing stopped than the power went off. Unable to help myself, I remained seated on my chair with legs raised up.

My mum too, was in the bathroom and she could not move even an inch.

My young sister began crying terribly. She asked me to go to her rescue but I was very helpless.

Everyone stayed where they were until midnight when my father came back home from his night shift.

He rushed into the house to find out what had happened. We tried to stop him but he couldn't. He switched on his torch and was able to see the serpent which had coiled in the middle of the room waiting to enjoy its evening meal. He got a stick and hit it dead.

We came together, held our hands and thanked God for having saved us from the deadly creature.

- A title. Always write a suitable title for the jumbled sentences. Use the title given in the question, and if it's not given, then get a suitable one and write it in capital letters.
- An introduction; identifying the beginning sentences e.g background, question, saying etc.
- The body; find the supporting ideas, events, characters, e.g what the story is about, use of conjunctions etc.
- The conclusion; consider the event/situation in which the story ends or ending words e.g lastly, finally, at last, in a nutshell, in the end etc.

Read through the whole story three times:
