.....
40. What is a photosynthesis?
.....
.....
.....

SECTION B

41. a) Give any two advantages of breast feeding.
i)
ii)
- b) State any two situations where bottle feeding is recommended.
i)
ii)

42. Study the diagram below and answer the following questions;

- a) Name the class of levers drawn above.

.....
.....

- b) Calculate the distance of Y if the above machine is balancing.

.....
.....

- c) How far is Opio seated from Kato?

.....
.....

.....
.....

.....
.....

.....
.....

43. The diagram below is a fruit.

a) To which group of succulent fruits does it belong?

.....
.....

b) Why is the above fruit regarded as a succulent fruit?

.....
.....

c) Name the parts labeled.

A.....

B.....

44. a) State two ways in which the spread of germs by house flies can be controlled.

i).....

ii).....

b) How is the body of a house fly adapted to the spread of germs?

.....
.....

c) Which stage in the life cycle of a house fly is useful to man?

.....
.....

45. The diagram shows an item used to promote sanitation at home.

a) What name is given to the above facility?

.....

b) Why should ash be poured in the above facility?

.....
.....

c) State any one advantage of such a facility at home

.....
.....

d) Give one danger of not having such a facility at home.

.....
.....

46. a) Explain the meaning of Primary Health Care.

.....
.....

b) Which element of PHC controls deficiency diseases in the community?

.....
.....
.....

43. The diagram below is a fruit.

a) To which group of succulent fruits does it belong?

.....
.....

b) Why is the above fruit regarded as a succulent fruit?

.....
.....

c) Name the parts labeled.

A.....

B.....

44. a) State two ways in which the spread of germs by house flies can be controlled.

- i).....
ii).....

b) How is the body of a house fly adapted to the spread of germs?

.....
.....

c) Which stage in the life cycle of a house fly is useful to man?

.....
.....

45. The diagram shows an item used to promote sanitation at home.

a) What name is given to the above facility?

.....

b) Why should ash be poured in the above facility?

.....

.....

c) State any one advantage of such a facility at home

.....

.....

d) Give one danger of not having such a facility at home.

.....

.....

46. a) Explain the meaning of Primary Health Care.

.....

.....

b) Which element of PHC controls deficiency diseases in the community?

.....

.....

c) State any two principles of PHC.

i).....

ii).....

47. a) What is drug abuse?

.....
.....

b) State any two uses of essential drugs.

i).....

ii).....

c) Why are essential drugs kept out of reach of children?

.....
.....

48. a) Give one example of inorganic particles of soil.

.....
.....

b) Why is clay soil the best for making pots?

.....

.....

c) Which two components of soil support germination of seeds?

i).....

ii).....

49. a) Apart from brushing give another way of promoting oral health.

.....
.....

- b) Give any two kinds of teeth found in the human mouth.
- i).....
- ii).....
- c) What is the function of the blood vessels in the pulp cavity?
-
-

- i) Nose ring
-
- ii) Ear notching
-
-

(b) Why do farmers majorly rear Friesian cattle?

-
-
-

(d) Apart from milk and meat, mention any other product obtained from cattle.

-

51. a) Give one device which uses both a magnet and electricity.

b) Why is iron used to make temporary magnets?

-

c) State any two properties of magnets.

i).....

ii).....

52. Below is a diagram of a human skin.

- a) To which body system does the diagram belong?

.....
.....

- b) Which body waste is eliminated by the organ shown?

.....
.....

- c) State the function of the parts marked;

C
D

53. a) What term refers to the body's ability to resist disease causing germs?

.....

- a) Give the two methods used to introduce vaccines into the body.

(i)
(ii)

- b) State one way a baby acquires natural immunity.

.....
.....

54. (a) Why is milk referred to as an ideal food?

.....

(b) Mention a disease in humans which is spread through drinking contaminated unboiled milk.

(i)

(ii)

(c) Outline any one step taken by a milk man before milking a cow.

.....

.....

55. **The table below shows vectors and germs they transmit. Use it to answer questions about it.**

Vectors	Germs
(i) Housefly	Trypanosoma
(ii) Anopheles mosquito	Filarial worms
(iii) Tsetse fly	Plasmodia
(iv) Culex mosquito	Chlamydia
	Onchocerca volvulus

Write the germs against vectors that transmit them.

- (i) Housefly.....
- (ii) Anopheles mosquito.....
- (iii) Tsetse fly.....
- (iv) Culex mosquito.....

END

SECTION A:

1. Name any one example of a stem tuber.

.....
.....
.....

2. Identify any one disease one can suffer from due to drinking contaminated water.

.....
.....
.....

3. Give one reason why small stones are added to poultry feeds.

.....
.....
.....

The diagram below shows a type of machine. Use it to answer the question that follows.

4. To which class of levers does the above machine belong?

F
.....
.....

5. Apart from clean water, name one other material used in making ORS.

.....
.....

6. Mention any one item used in giving first aid for fractures of the arm.

.....
.....

SECTION B: 50 MARKS

Questions 51 to 55 carry ten marks each.

- 51.** Read the passage below and then answer, in full sentence, the questions that follow.

One evening, while Mugisha was listening to news read on radio by Sungura, he heard that the PLE results for 2007 had been released. Mugisha became worried because he was one of the candidates nervous about their examination results.

Releasing the results at the Ministry headquarters, the Honourable Minister of Education and Sports was happy to note that most of the candidates had passed.

The general performance showed that Mathematics was the best done subject. The Minister congratulated all the teachers of Mathematics on overcoming the old thinking that the subject was hard. She hoped that the country would be able to produce more engineers and doctors.

She thanked the pupils who had worked hard to produce the wonderful results. She also thanked the teachers who taught those young men and women tirelessly. She also thanked the teachers who taught those young men and women tirelessly. She was happy with the parents who sent their children to school. However, she warned those parents who pull out their children from school to stop the habit otherwise the law would get them.

The Minister also noted that she was releasing true results because the examination had been done without any malpractice. She called upon the head teachers of all the primary schools in the country to have a high level of discipline in their schools.

- (a) Who read the news on radio?

.....
.....

- (b) Why did Mugisha become worried?

.....
.....

Read the following instructions carefully:

1. The paper has two sections: A and B.
Section A has 20 questions and Section B
has 12 questions
2. Answer all questions. All answers to both
sections A and B must be written in the
spaces provided.
3. All working must be done using a blue or
black ball-point pen or fountain pen. Any work
written in pencil other than graphs and diagrams
will not be marked
4. No calculators are allowed in the examination
room.
5. Unnecessary changes in work may lead to
loss of marks. Any handwriting that cannot easily be
read may lead to loss of marks.
6. Do not fill anything in boxes
indicated: "For Examiners' Use Only"
and those inside the paper.

FOR EXAMINERS' USE ONLY		
Qn. No.	MARKS	EXRS' NO
1- 5		
6- 10		
11- 15		
16- 20		
21- 22		
23- 24		
25- 26		
27- 28		
29- 30		
31- 32		
TOTAL		

SECTION A: 40 MARKS

1. Subtract: $57 - 15$

2. Write, "Forty five thousand, one hundred four " in figures

3. Find the L.C.M of 12 and 18

4. Simplify $-8 - 3$.

5. If $k = \{ 5, y, 7, h \}$, find the number of subsets in set K.

6. Add: $\frac{2}{3} + \frac{1}{4}$

7. Four rulers cost sh.3600. How many rulers can a parent buy with sh.5400?

8. Using a ruler, a pencil and a pair of compasses only, construct an angle of 150° in the space provided below.

9. Solve $18 = 3(r - 2)$

10. In the figure below, find the area of the shaded part.

11. Today is Friday. What day of the week was it 33 days ago?

12. Given that $a = bc$, $b = 4$ and $c = 3$. Find the value of $b(a - c)$.

13. A box full of cups weighs $5\frac{1}{2} kg$. Find the weight of the box in grammes.

14. Express 98 in Roman numerals

15. Find the value of k in the diagram below;

16. Convert 72km/hr to m/sec.

17. The average of 8, y and 12 is 9. Find the value of y.
18. Tom deposited sh.600,000 in a bank that offers a simple interest rate of 5% per annum for 3 years. Calculate the simple interest got after that time.
19. Square the number in the sequence below:
1, 3, 6, 10, _____
20. Find the radius of a circle whose area is 154m^2 . (Use $\pi = \frac{22}{7}$)

SECTION B (60 marks)

21. The Venn diagram below shows the number of people who ate Meat (M) and Fish (F) on Mary's birthday party.

- a) If 22 people ate fish, find the value of p . *(03 marks)*
- b) Find the total number of people who attended her party. *(02 marks)*

22. Katoto went to the shop and bought the following items.

- $2\frac{1}{2}$ kg of rice at sh.4000 each.
- 3loaves of bread at sh.4,500 per loaf
- 500gm of sugar at sh. 3000 per kg

a) How much money did he spend altogether?

(04 marks)

b) If Katoto went with 3-ten thousand shilling notes, find his change.

(01 mark)

23. The sum of **four** consecutive even numbers is 44.

Find the numbers if the 3rd number is k.

(05 marks)

24. In a candidate class, $\frac{1}{4}$ of the pupils visited Rwanda, $\frac{1}{2}$ of the remainder visited Tanzania. The rest of the pupils visited Kenya. If 320 candidates visited Kenya, find the total number of candidates in that class. **(04 marks)**

25. a) Using a pair of compasses, a pencil and ruler only, construct a rhombus WXYZ where $WX = 6\text{cm}$, angle $WXY = 120^\circ$.

(04 marks)

b) Measure diagonal XZ

(01 mark)

26. Study the Venn diagram below and answer the questions that follow.

- a) Find the perimeter of the figure ABDEA. (Use $\pi = \frac{22}{7}$) **(02 marks)**
- b) Work out the area of the shaded part. (Use $\pi = \frac{22}{7}$) **(03 marks)**

27. Study the table below and answer the questions that follow;

Number of pupils	2	1	3	4
Marks scored	80	94	70	84

a) How many pupils did the test? **(02marks)**

b) Calculate the average mark. **(03 marks)**

28. A motorist travelled from town B to town C at 60km/hr in only 2 hours. He rested at town C for 30 minutes. He then continued from town C to town D at a speed of 50km/hr for $1\frac{1}{2}$ hours.

a) Find the total distance from town B to town D. **(03 marks)**

b) Calculate his average speed for the whole journey. **(02 marks)**

29. a) Find the product of the value of 5 and place value of 7 in the number 35.672 **(02 marks)**

b) Given that $34_k = 10110_{\text{two}}$, find the value of k. **(03 marks)**

30. a) Simplify: $\frac{0.36 \times 1.5}{0.3 \times 0.4}$ *(03 marks)*

b) Amos, Ben and Chom shared some money in the ratio of 3:5:4 respectively. If Ben got 13000 less than Chom and Amos, how much money did they share altogether? *(02 marks)*

31. Given that $y = 2x - 2$, complete the table below; *(05 marks)*

x	3		-2		$\frac{1}{2}$
y		8		-4	

32. Town B is 50km East of town A. Town C is 70km North of town B.
- a) Using a scale of 1cm to represent 10km, draw an accurate diagram to show the three towns. **(04 marks)**

- b) Find the shortest distance between town A and town C in kilometres. **(01 mark)**
